

Radio Spot Script on Resolution 1325

[Music intro]

-If you ignore women, you ignore peace.

-But did you know that there are over 2 million people living in the internally displaced people's camp in northern and eastern Uganda?

-Oh yes, and out of every 100 people living in the internally displaced people's camp, 70 of them are women and children who have suffered during the armed conflict.

-Yes, that is why the women must be fully involved in the Juba peace talk between the government of Uganda and the Lord's Resistance Army.

-Let us all comply with the UN Security Council Resolution 1325 because women are major actors in all peace processes.

-That's right. If you ignore women, you ignore peace

[Music outro]

-This important information has been brought to you by Isis-WICCE in collaboration with Radio FIRE and the *International Women's Tribune Centre* and - and all the women peace activists in the Great Lakes region.
